“ I just learned yesterday that Jim passed May 8. Jim and I had planned to get together when I returned from Hawaii 5/11. He texted me 5/7 to tell me he finished a big window install and was very busy. He looked forward to seeing my pictures.

*I live at Lake Oconee because of Jim. We first met about 1998. We went on a great backpacking trip to Cumberland Island. We stayed in touch sporadically. However I was looking forward to hanging out with Jim at his glass studio. I have terminal brain cancer and Jim was a great uplift for me. I will miss him.*

*See the pic of Jim after he installed my window he built for me.*
